Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Plains Forester, Vol. 4: October-November, 1939 The establishment of conifers in our shelterbelt plantings presents a problem which is a direct challenge to our otherwise successful tree planting technique. In spite of the adoption of various new methods of handling and planting conifer stock, the results obtained have been decidedly poor. When the amount of effort and money expended on such an activity is considered the number of successfully established conifer rows is far too small.
