### **Reviews**

*This pdf is wonderful. It really is written in simple terms instead of hard to understand. It's been developed in an exceedingly simple way and it is just after I finished reading this ebook in which it in fact modified me, altered the way in my opinion.*

Socially awkward geneticist Quinn Strickland has willingly forgone the pleasures in life to reach her career objectives. Alone and approaching thirty, she uses her independence to mitigate any risk of a broken heart. Her strategy works until the day a handsome stranger bursts into her lab and her orderly plans shoot straight to Hades. He claims to be her personal divine protector, a powerful, ancient warrior sent to defend a prophetic time bomb existing within her own genetic code. The Scion s alpha-geek Wyck is offered the opportunity of his immortal lifetime as head of his own covert operation. He arrives at a Colorado lab expecting starched white coats and sterile surroundings-not a redheaded spitfire in charge of both his project and his libido. His skills have carried him from the battlefields of ancient England to the pits of Hell and he has no plans to be felled by one woman, regardless of her shag-worthy charms. Divine duty requires him to protect the apocalyptic Seal encrypted within Quinn s DNA, but his heart has other ideas. When his personal feelings interfere with his age-old vendetta, he s forced to decide between desire and retribution.
